PREFACE AND ACKNOWLEDGMENTS

Fortieth Edition

The *South Carolina Higher Education Statistical Abstract* is a comprehensive, single-source compilation of tables and graphs which report data frequently requested by the Governor, Legislators, college and university staff, other state government officials, and the general public. The 2018 edition of the Statistical Abstract marks the 40th year of this valuable publication.

This *Abstract* includes the most recent statistics on enrollment, degrees awarded, faculty, tuition and fees, funding, and other factual data. A glossary of terms is included in the appendix.

The *Abstract* would not have been possible without the assistance of the college and university institutional representatives' completion of data for Commission reports and the federal Integrated Postsecondary Education Data System (IPEDS). The help and support of these individuals is extremely important to the Commission's data collection process. Their assistance is greatly appreciated.

ENROLLMENT

ENROLLMENT

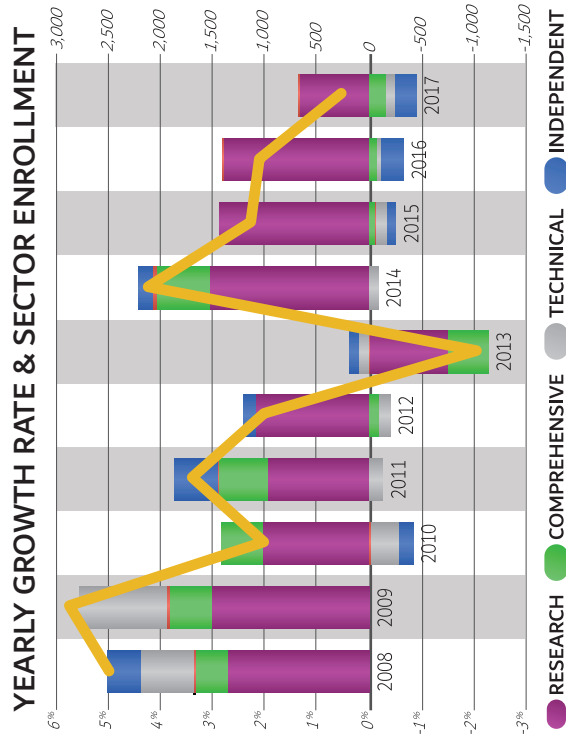

IN SOUTH CAROLINA in Fall 2017, 238,567 students, as measured by headcount, were enrolled throughout 33 public four- and two-year institutions and 22 independent institutions. Despite a 0.2% overall decrease in total enrollment from Fall 2016, enrollment at public four-year institutions increased 1.5%, rising to 114,568 persons, which was 48% of total enrollment. Enrollment in independent colleges and universities decreased 2.3%.

Of the total enrolled students, 139,416, or 58.4%, were females and 99,151 were males. This population's racial composition was 62.5% White, 22% Black, 4.6% Hispanic, 3% of two or more races, and 1.8% Asian, with the remainder categorized as other.

In Fall 2017, 45,533 freshmen enrolled in South Carolina's public four-year, public two-year, and independent institutions. Of this cohort, 19,479 enrolled in public four-year institutions, 18,143 in public two-year colleges and regional campuses, and 7,911 in independent institutions. First-time freshmen enrollment was 55.7% female and 44.3% male; and the racial composition of this group was 61% White, 24.2% Black, 5.5% Hispanic, 3.6% of two or more races, and 1.6% Asian, with the remainder categorized as other.

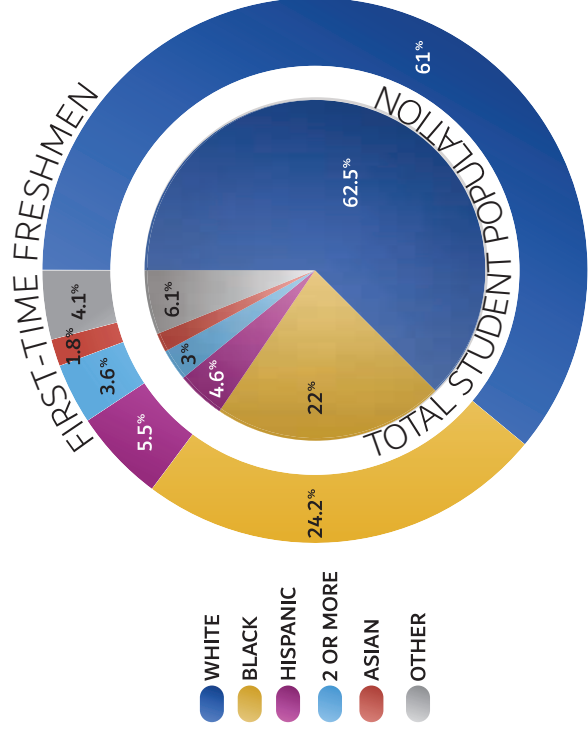

NATIONWIDE, between January and October 2017, 1.9 million of 2.9 million, or 66.7%, of high school graduates from ages 16 to 24 enrolled in colleges or universities, according to the U.S. Bureau of Labor Statistics. This marked a decrease from the previous year, when 69.7% of high school graduates enrolled in colleges or universities.

ENROLLMENTS OF NON-SC GEO-ORIGIN STUDENTS

Since 2007, enrollment of non-SC geo-origin students in South Carolina's institutions has increased; however, the rate at which these students are enrolling appears to be declining. And while Research Institutions have historically enrolled a preponderance of this population, in recent years they have come to attract nearly all non-SC geo-origin enrollees.

RACIAL COMPOSITION COMPARISON

Enrollments of first-time freshmen in 2017, while demographically similar to the total student population, indicate minorities' increasing composition of South Carolina's post-secondary education student body. Notably, first-time freshmen designating themselves as Blacks, Hispanics, or people of 2 or More Races have increased relative to the whole population.

Out-of-State enrollment includes nonresidents of South Carolina and those nonresident exception students on scholarship (non-state) who may have a full or partial waiver of the Out-of-State tuition differential per board approved policy as allowed by Section 59-112-70 of the SC Code of Laws, as amended. See below for additional details concerning In-state and Out-of-State categories.

⁽¹⁾ **In-State** includes the following categories as coded in CHEMIS for Fee Purposes:

- Residents of South Carolina
- military personnel and their dependents in SC;
- faculty/staff employed by State institutions and their dependents;
- retirees and their dependents who reside in SC and have been domiciled in SC for less than one year and maintain a residence in SC;
- full-time employees in SC and their dependents who have taken steps to establish residency;
- students participating in the reciprocal Southern Regional Education Board (SREB) Academic Common Market program whereby students may take programs not available in their state but offered in another state within the region at the In-State rate;
- Reciprocity agreements which enable reciprocity with other states with regard to In-State tuition and fees; and
- non-resident aliens in approved VISA classifications once they have been awarded permanent resident status and meet statutory provisions for residency and domiciliary.
- Resident - Exception, Covered individuals receiving veterans GI Bill Chapter 30 and 33 education benefits (Section 59-112-50C).

⁽²⁾ **Out-of-State** includes the following categories as coded in CHEMIS for Fee Purposes:

- Non-resident of SC; and
- Non-resident exception for fee category including Out-of-State students on non-state scholarships for which the board may adopt a policy to provide for a waiver of the tuition differential.

DEGREES AWARDED

DEGREES AWARDED

IN SOUTH CAROLINA during FY 2016-2017, a total of 51,996 degrees and certificates across degree levels were awarded. Public four-year institutions awarded a narrow majority of degrees and certificates, accounting for 26,274, or 50.1% of the total. Technical colleges and the University of South Carolina's two-year regional campuses collectively awarded 17,464 degrees and certificates, with independent institutions bestowing the remaining 8,258 awards.

Of the 51,996 degrees granted in FY 2016-2017, females accounted 58.9% of the total, whereas males comprised just 41.3%. The total population of degree recipients was composed predominantly of Whites, which were awarded 67.8% of all degrees, followed by Blacks (19.3%), Hispanics (3.5%), people of two or more races (2.4%), Asians (1.8), and others (5.2%).

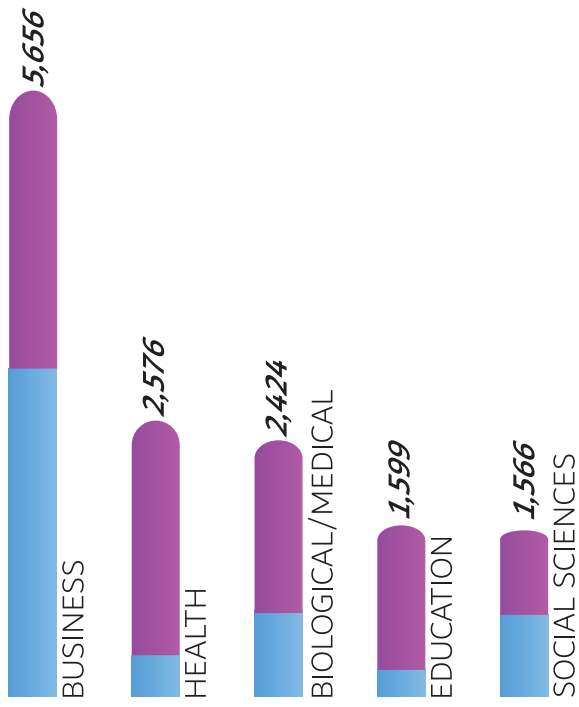

Bachelor's degrees were the most common of all degrees awarded, accounting 49.1% of the total. The gender breakdown for bachelor's degree recipients closely mirrored that of the total population, with 58.4% of degrees being awarded to females and 41.6% being awarded to males. Public four-year institutions awarded a preponderance of all bachelor's degrees, issuing approximately 75% of the total.

Associate degrees were the second most common degree type awarded, and most—approximately 96%—were granted by technical colleges and USC's two-year regional campuses.

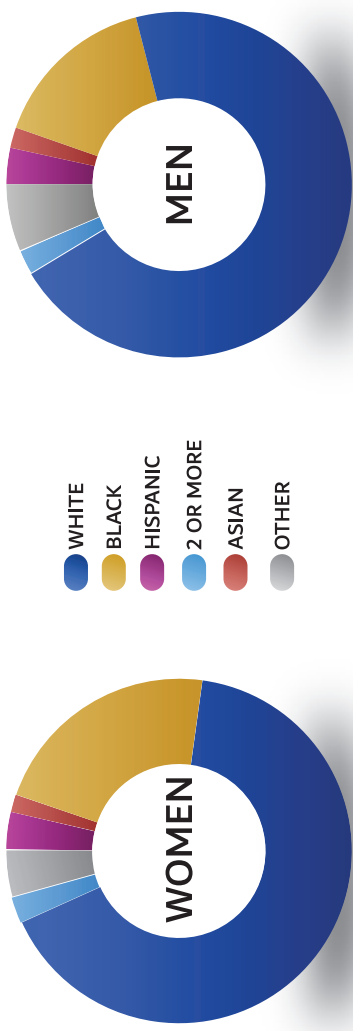

NATIONALLY, during the 2017-2018 academic year, there were 6,642 identifiable Title IV institutions in the United States and its jurisdictions. Of those identified, 2,902 were classified as 4-year institutions, 1,932 as two-year institutions, and 1,808 as less-than-2-year institutions.

Of the approximately 3.3 million students receiving degrees or certificates at 4-year, degree-granting Title IV institutions, more than 58% received a bachelor's degree. Some variation in the granting of bachelor's degrees was discernable between institution types: public institutions awarded about 64% of their collective 2 million students; private nonprofit institutions only awarded about 53% of their 1.1 million students; and private for-profit institutions awarded just 41% of their 277,000 students.

GRADUATION RATES

GRADUATION RATES

Graduation rates are considered one of the key indicators of success for a system or institution of higher education. Despite the interest and value associated with graduation rates, their calculation and interpretation can be complicated, particularly for determining the association between graduation and educational quality. The calculation of graduation rates in South Carolina arose in response to a question raised by the South Carolina Legislature as part of Act 255 of 1992. The Legislature wanted to know “How many years does it take for a first-time college student to graduate from a public college or university in South Carolina if the student goes to school full-time and does not change institutions?”

The original method for calculating graduation rates to address this question was devised through collaboration between the Commission on Higher Education and all the public colleges and universities within the State. This first method for calculating graduation rates has been replaced by a national standard (see the Glossary in Appendix 5) to allow for more accurate comparisons between States and institutions. The Graduation Rate Survey (GR) is the component of the Integrated Postsecondary Education Data System (IPEDS) that collects data on completion or graduation rates and transfer-out rates of full-time, first-time certificate or degree-seeking undergraduate students.

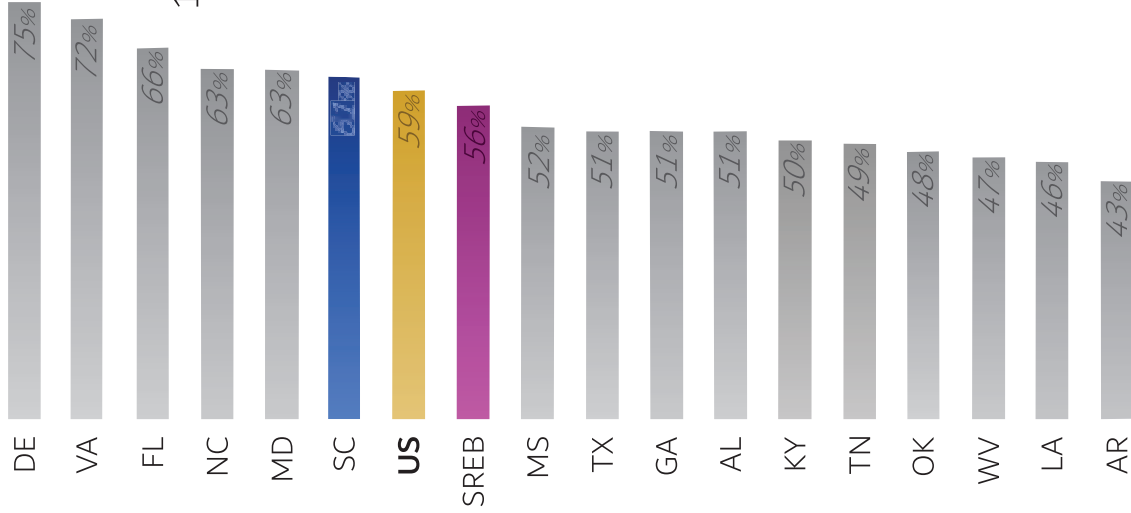

The current data indicates that the overall graduation rates at four-year public research and comprehensive teaching colleges have been stable for the past three years. During this same period the graduation rates at two-year institutions have increased, led by improvements within the Technical Colleges.

In comparison to the graduation rates of other states within the Southern region and Nation, the most recent data shows the graduation rate at four-year public institutions in South Carolina is above the National average and 10 out of 15 Southern states. The data for two-year public institutions, however, indicates that South Carolina has the lowest graduation rates in the Southern region and is below the national average.

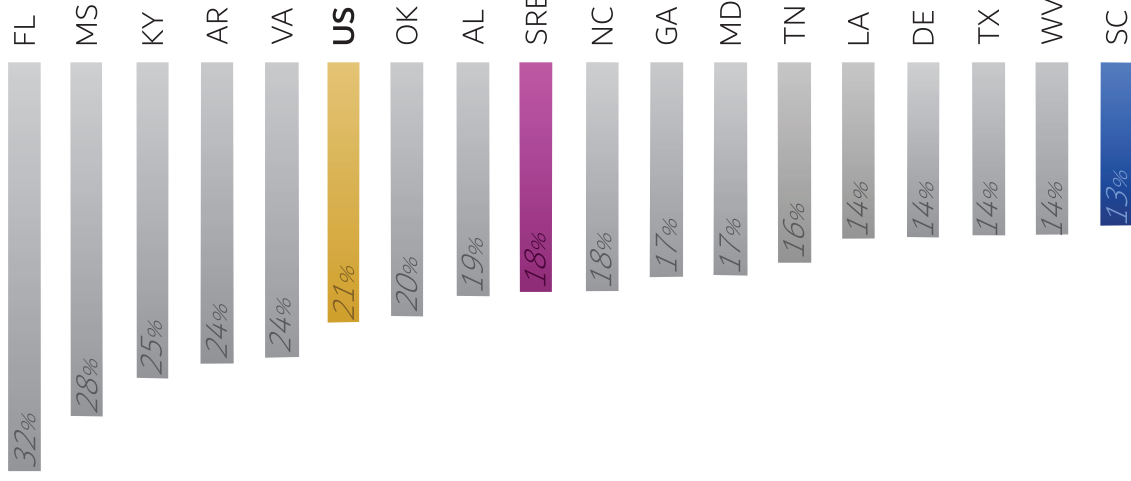

As a supplement to reports on graduation rates, the Commission on Higher Education began reporting in 2017 measures of student success and progress rates. Such reports derived from requests from institutional leaders, who expressed interest in being able to more precisely evaluate an individual institution’s contribution to a particular student’s educational attainment. To facilitate this, the Commission negotiated a contract agreement with the Voluntary System of Accountability (VSA) on behalf of institutions.

In summation, the graduation rates at four-year public colleges and universities have been stable over the past few years and are comparatively higher than the National average and most other States within our region. The graduation rates at two-year public colleges have increased but are still lower than both the National average and every other State in the region.

“Success Rate” is defined as the “GR Rate Plus.”

The Graduation Rate Survey (GR) defines the cohort of students to be included each year as the first-time, full-time, degree seeking students entering an institution each fall. The GR rate is calculated on the percentage of a cohort graduating within 150% of normal program time. The Success Rate, in addition to the graduates, includes those students who as of 150% of program time have transferred to another institution or those students who have continued to be enrolled the term following 150% of program time. The Success Rate is reported as an alternative to the standard graduation rate because it includes students who have not graduated but are still enrolled at a postsecondary institution and are therefore still potential graduates. This makes the Success Rate a better measure of non-completers because the difference between the Success Rate and 100% is only students whose status is unknown.

² SAM = the Student achievement measures data is available for the fall 2011 cohort.

¹Success Rate¹ is defined as the "GR Rate Plus."

The Graduation Rate Survey (GR) defines the cohort of students to be included each year as the first-time, full-time, degree seeking students entering an institution each fall.

The GR rate is calculated on the percentage of a cohort graduating within 150% of normal program time. The Success Rate, in addition to the graduates, includes those students who as of 150% of program time have transferred to another institution or those students who have continued to be enrolled the term following 150% of program time.

SAT & ACT SCORES

SAT & ACT SCORES

Standardized tests remain an important part of the college admissions process. The standardized testing landscape has shifted over the past decade due to format alterations to the tests and changing admissions requirements at colleges and universities. The changes to the exams themselves make comparisons over time difficult; however, within-year comparisons between groups can reveal useful insights.

Currently, more entering freshmen gain acceptance into South Carolina colleges and universities by reporting ACT scores than SAT scores. This difference is most pronounced with in-state students, with 57.9% reporting only ACT scores and 32.9% reporting only SAT scores. Of the remaining in-state students, 7.1% reported both ACT and SAT scores, and 2.1% did not report scores from either test. By comparison, out-of-state students similarly tend to report scores from only one test, albeit with a smaller discrepancy between the two, as 51.5% only reported scores for the ACT and 46.1% only reported scores for the SAT.

A comparison of mean scores for entering in-state and out-of-state freshmen shows that accepted out-of-state students have higher scores on both the ACT and SAT. In terms of acceptance into South Carolina colleges & universities, this data could indicate that out-of-state students face a more competitive applicant pool than in-state students.

In terms of overall high school test takers, South Carolina students had lower composite ACT scores and lower scores on the ACT English and Math sections compared to the national average. For SAT scores, South Carolina test takers had higher composite and English section scores but lower Math scores compared to the national average.

SCHOLARSHIPS

SCHOLARSHIPS

Scholarships and grants are forms of financial aid that help students pay for postsecondary education. Unlike student loans, scholarships and grants do not have to be repaid. Over the years, millions of dollars in scholarships and grants have been awarded to eligible South Carolina students attending South Carolina public and independent colleges. The state provides financial assistance to eligible students in the form of need-based, merit-based, and other financial aid.

In South Carolina, students may be eligible to receive one of the three statewide, merit-based scholarships: Palmetto Fellows Scholarship, Legislative Incentives for Future Excellence (LIFE) Scholarship, or SC HOPE Scholarship. Additional funding is available for enhancements to the LIFE Scholarship and Palmetto Fellows Scholarship based on declared majors in approved mathematics and science programs.

Please be aware that the information provided is subject to change and updates are made as necessary. For the most up-to-date information, visit the Commission's web site at www.che.sc.gov.

South Carolina Scholarships and Grants Administered by the S.C. Commission on Higher Education

General Eligibility Requirements for all State Scholarships and Grants. Please visit <http://www.che.sc.gov/InstitutionsEducators.aspx#ScholarshipGrantInfo>.

The Student must:

1. Be a US citizen/legal permanent resident*;
2. Be a South Carolina resident*;
3. Be enrolled as a degree-seeking student at an eligible South Carolina public or independent institution;
4. Not owe a refund or repayment on any State or Federal financial aid and not be in default on a Federal student loan; and
5. Certify that he/she has never been convicted of any felonies (except Lottery Tuition Assistance) and has not been convicted of any second or subsequent alcohol and/or drug-related misdemeanors within the past academic year.

**This must be determined at the time of high school graduation and college enrollment.*

Palmetto Fellows Scholarship

The Palmetto Fellows Scholarship is a merit-based scholarship established in 1988 to recognize the most academically-talented high school seniors and encourage them to attend college in the state. The annual award amount for the freshman year is up to \$6,700. The award amounts for the sophomore, junior, and senior years are up to \$7,500 per year. Half of the scholarship is awarded in the fall term and half in the spring. The scholarship is applied toward the cost of attendance, less any other gift aid, at an eligible four-year institution in South Carolina. Assuming continued eligibility, Palmetto Fellows may receive scholarship funding for up to eight consecutive terms of full-time study toward the first bachelor's degree. Palmetto Fellows may receive up to 10 consecutive terms of full-time study toward the first CHE-approved five-year undergraduate program.

In addition, Palmetto Fellows cannot be recipients of the LIFE Scholarship, S.C. HOPE Scholarship, or Lottery Tuition Assistance in the same academic year.

There are two opportunities to apply for the scholarship during the student's graduating year, which is during the early (December 15th) or final (June 15th) deadline of the graduating year. Students must process the application through their high school guidance counselor. Application for the Palmetto Fellows Scholarship must be completed during the student's graduating year of high school. To be eligible for the scholarship, students must meet each criterion in one of the following sets of academic requirements:

1. Score at least 1200 on the SAT (27 on the ACT), earn a minimum 3.50 cumulative GPA on the S.C. Uniform Grading Policy (SC UGP), and rank in the top six percent at the end of either the sophomore, junior, or senior class;
OR
2. Score at least 1400 on the SAT (32 on the ACT) and earn a minimum 4.00 cumulative GPA on the SC UGP (class rank requirement waived).

To renew the Palmetto Fellows Scholarship each academic year, students must earn at least 30 credit hours for graduation purposes and earn a minimum 3.0 cumulative institutional GPA for graduation purposes at the current institution at which the student is seeking a degree.

Legislative Incentives for Future Excellence (LIFE) Scholarship

The LIFE Scholarship Program is a merit-based scholarship established in 1998. The scholarship is awarded annually to eligible students attending two- and four-year institutions in the state. Scholarship funds are awarded half in the fall term and half in the spring and must be applied toward the cost of attendance.

Students attending an eligible two-year or technical college may receive up to the cost of tuition and fees, to include a \$300 book allowance (total award not to exceed \$5,000), for a maximum of two consecutive terms toward a one-year program and up to four consecutive terms toward a two-year program (based on the date of initial college enrollment). Students attending an eligible four-year public or independent institution may receive up to \$4,700, plus a \$300 book allowance (total award not to exceed \$5,000), for a maximum of eight consecutive terms toward the first bachelor's degree or the first CHE-approved 3 + 2 program. For the first CHE-approved five-year undergraduate program, students may receive up to 10 consecutive terms of scholarship funding (maximum terms of funding based on the date of initial college enrollment).

To be eligible, students must be legal residents of South Carolina at the time of their high school graduation and college enrollment. In addition, LIFE Scholarship recipients cannot be recipients of the Palmetto Fellows Scholarship, S.C. HOPE Scholarship, or Lottery Tuition Assistance in the same academic year.

In order to qualify at a two-year or technical college, first-time entering freshman must earn a minimum 3.0 cumulative GPA based on the SC Uniform Grading Policy (UGP) upon high school graduation (test score and class rank requirements are waived).

In order to qualify at a four-year institution, first-time entering freshman must meet two of the following three criteria:

- (1) Earn a minimum 3.0 cumulative GPA on the S.C. UGP upon high school graduation
- (2) Score at least 1100 on the SAT (equivalent 24 on ACT) by the June test administration of high school graduation year
- (3) Rank in the top 30% of the high school graduating class based on the SC UGP

To renew (or earn) the LIFE Scholarship, students must earn an average of 30 credit hours by the end of the first year, 60 credit hours by the end of the second year, and 90 credit hours by the end of the third year for graduation purposes (based on the date of initial college enrollment) and earn a cumulative 3.0 "LIFE GPA" each academic year.

Enhancements for the LIFE Scholarship and Palmetto Fellows Scholarship

Scholarship recipients may be eligible to receive enhancement funds as early as the sophomore year for a maximum of six consecutive terms toward the first bachelor's degree or first CHE-approved 3 + 2 program. Scholarship enhancements are not available the first year of college enrollment.

To qualify for the LIFE Scholarship or Palmetto Fellows Scholarship Enhancement, a student must meet ALL eligibility requirements and be a recipient of the underlying scholarship. In addition, students must declare a major in an approved mathematics or science program at an eligible four-year institution in S.C.

Students must successfully complete at least 14 credit hours of instruction in mathematics **or** life and physical sciences **or** a combination of both by the end of the first academic year of college enrollment.

Palmetto Fellows may receive up to \$10,000 per year (combined funds from \$7,500 Palmetto Fellows Scholarship and \$2,500 enhancement). LIFE Scholarship recipients may receive up to \$7,500 per year (combined funds from \$5,000 LIFE Scholarship and \$2,500 enhancement). Scholarship and enhancement funds must be applied toward the cost of attendance.

S.C. HOPE Scholarship

The S.C. HOPE Scholarship is a merit-based scholarship established under the 2001 S.C. Education Lottery Act and implemented in fall 2002. The scholarship was created to provide funding for students attending an eligible four-year institution in S.C. who did not qualify for the LIFE or Palmetto Fellows Scholarship.

Students may receive up to \$2,500 plus a \$300 book allowance (total award not to exceed \$2,800) for the first two consecutive terms of college enrollment. Scholarship funds are applied toward the cost of attendance. In order to qualify, first-time entering freshman must earn a minimum 3.0 cumulative GPA on the S.C. Uniform Grading Policy (UGP) upon high school graduation.

Funding for this program is dependent upon lottery proceeds. S.C. HOPE Scholarship recipients cannot be recipients of the LIFE Scholarship, Palmetto Fellows Scholarship, or Lottery Tuition Assistance in the same academic year.

Since the S.C. HOPE Scholarship is for the freshman year only, students may qualify for the LIFE scholarship beginning with their sophomore year. They must meet the eligibility requirements for earning the LIFE Scholarship.

S.C. Need-based Grant

At S.C. public institutions, eligible degree-seeking students may receive up to \$2,500 annually if enrolled full-time and up to \$1,250 annually if enrolled part-time. Students may receive Need-based Grant funding for up to two academic terms each academic year which may be awarded in any combination of fall, spring, or summer terms. The Need-based Grant is an annual award that must be applied toward the cost of attendance and disbursed half in the first semester and half in the second semester. To be eligible for grant funds, students must submit the Free Application for Federal Student Aid (FAFSA) to the US Department of Education, be enrolled in at least six credit hours for the term and enrolled in their first one-year program, first associate's degree, first two-year program leading to a baccalaureate degree, first baccalaureate degree, or first professional degree. Assuming continued eligibility, students may receive up to eight full-time equivalent terms. Based on the institution's level of Need-based Grant funding, the student's financial aid office determines the exact award amount, after considering any other scholarship or federal aid received.

To renew the Need-based Grant, students must complete and submit a FAFSA each year, earn the requisite number of credit hours based upon their enrollment status during the term(s) grant funds were awarded and earn at least a cumulative 2.0 GPA for graduation purposes by the end of the academic year.

Lottery Tuition Assistance

The Lottery Tuition Assistance Program was established in 2001 under the S.C. Education Lottery Act and implemented fall 2002. Lottery Tuition Assistance is available at eligible two-year institutions in the state. Exact award amounts are contingent upon the number of eligible students and funding available from lottery proceeds. Before calculating the award amount, all federal grants and the S.C. Need-based Grant must be applied. Lottery Tuition Assistance funds can only be used for payment of the cost of tuition and mandatory fees.

Each academic year, S.C. residents must submit the Free Application for Federal Student Aid (FAFSA) or the FAFSA Waiver form. In addition, students must be enrolled as degree-seeking in at least six credit hours for the term. Recipients of Lottery Tuition Assistance cannot receive nor be eligible to receive the S.C. HOPE, LIFE, or Palmetto Fellows Scholarship in the same academic year.

To renew Lottery Tuition Assistance, students must meet satisfactory academic progress established by the institution for the purposes of complying with Title IV regulations.

¹A tuition abatement is when an out-of-state or international student receives a waiver on part, or all, of the out-of-state tuition fee. South Carolina Postsecondary Institutions can award individual abatements for a variety of reasons. One of the most common abatement categories is a Sister-State agreement whereby South Carolina residents who attend an out-of-state public institution are granted an abatement in return for residents of that state being granted abatements at public institutions within South Carolina. Details of the abatement process can be found Section 59-112-70 of the 1976 State Code.

FINANCE

Revenue derived from state appropriations is combined with tuition and fees; grants, contracts, and gifts; and in part by sales and service to fund the Educational and General (E&G) activities of our public colleges and universities. The tables on the following pages reflect a consistent pattern of decreasing state support for higher education and a shift to greater reliance on tuition and fees and other non-state revenue.

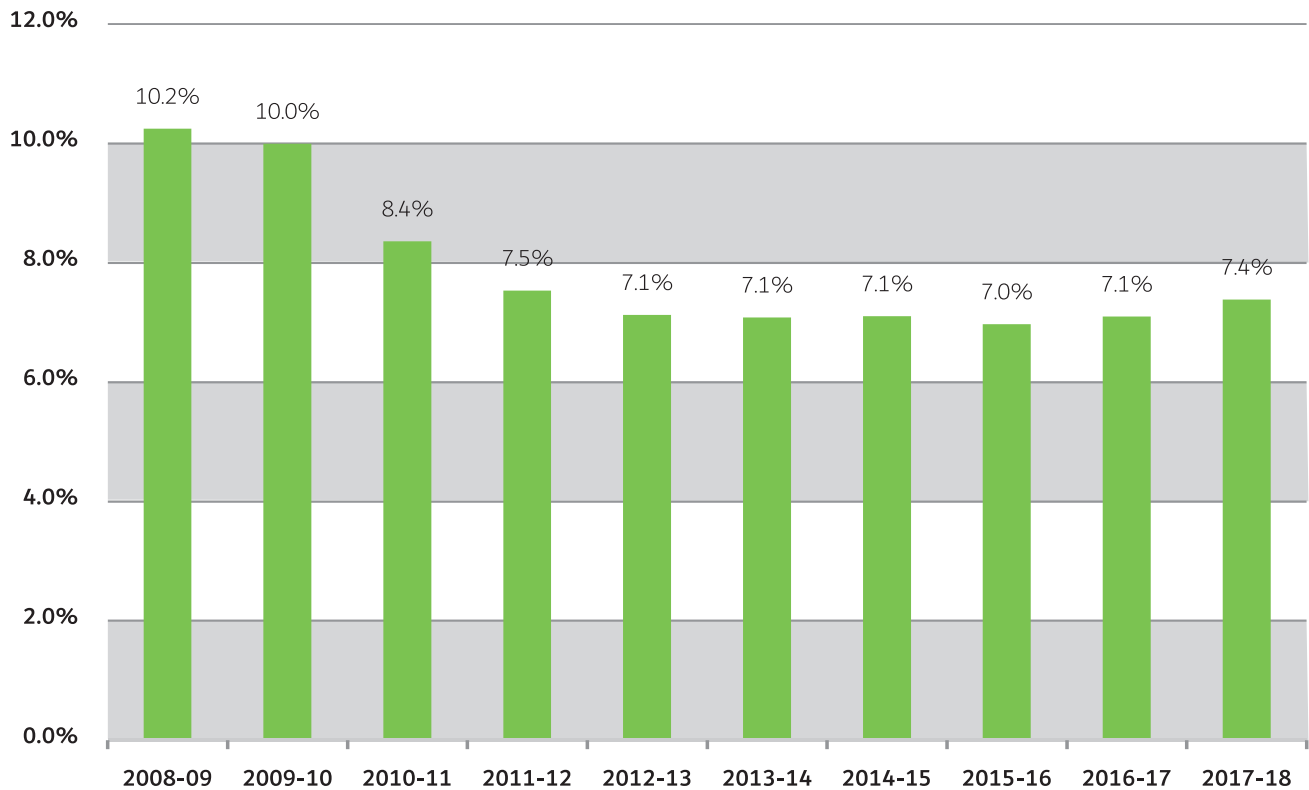

The following pages give a brief overview of the appropriations provided in support of E&G costs at our public colleges and universities, funding provided through the South Carolina Education Lottery for operations, and funding provided through a combination of appropriated, lottery, and other funding in support of merit-based scholarships (Palmetto Fellows, LIFE, and HOPE), Lottery Tuition Assistance (LTA) to two-year institutions, and need-based aid.

NOTE: The appropriations, except as noted, represent only initial program funds as provided per the Appropriations Act. State General Funds and Lottery Funds are included, as are other funds, such as Barnwell Nuclear Waste Facility revenues appropriated for the Education Endowment or funds from non-recurring sources. The Education Endowment for higher education is required statutorily, per §48-46-40(F), to be funded at \$24 million annually should Barnwell revenues not be sufficient. As of FY 2011-12, the Education Endowment for higher education is funded wholly with State General Funds, and these funds are split equally, per §59-140-30, between Palmetto Fellows and Need-based Grant programs.

Student financial aid incentive programs for SC National Guard members are not reflected here. As of 2007, a college assistance program was made available to Guard members in lieu of a prior loan repayment program for Guard members. The loan repayment program is being phased out as of 2007 and was closed to new participants with the passage of the SC National Guard College Tuition Assistance Program (SCNG CAP). As the loan program was phased out, unallocated appropriations from the loan program were made available for SCNG CAP. Initial appropriations for the SCNG CAP program were approximately \$1.7 million in lottery funds in FY 2012-13, and with the depletion of availability of funds from the former loan repayment program, the SCNG CAP initial appropriations in FY 2013-14 have been increased to just over \$4.5 million. In FY 2014-15, FY 2015-16, and FY 2016-17, the SCNG CAP program was appropriated a total of \$4,634,968 for each fiscal year, of which \$89,968 is from General Funds and \$4,545,000 is from Lottery funds.

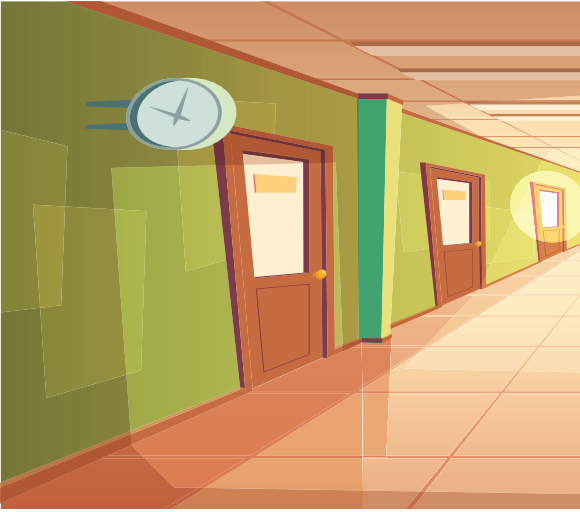

* Beginning year appropriations and additional funds may be appropriated for the open-ended programs (Palmetto Fellows and LIFE, Footnote 1). Merit programs have been fully funded to date with regard to anticipated program needs.

- (1) For the Palmetto Fellows and LIFE programs, additional amounts above initial appropriations may be provided since these are "open-ended" programs and qualified students are provided the awards. For Palmetto Fellows and LIFE, the General Assembly passed legislation effective FY 2008-09 that provided additional stipends beginning in the sophomore year to recipients of Palmetto Fellows and LIFE who are majoring in identified math, science, engineering and health-related majors and increased the amount of the Palmetto Fellows award beginning in the second year for all recipients.
- (1*) In FY 2014-15, the General Assembly appropriated \$1,718,902 for "summer eligibility" of Palmetto Fellows and LIFE in order to initiate the opportunity for year-round awards for the merit scholarship programs. The funds for summer eligibility were included in the lottery and are reflected here in the appropriations for LIFE.
- (2) HOPE and Lottery Tuition Assistance for 2-Year Institutions began with the implementation of the Education Lottery in 2002.
- (3) For CHE Need-based Grants program a statutory provision requires that a portion of the available Need-based Grant funds each year must be allocated to independent institutions based on their share of full-time, in-state undergraduate enrollment in the prior fall. In fall 2013, the percentage enrollment share for the independent institutions was approximately 16.3%. See also note 4 regarding Tuition Grants.
- (4) Tuition Grants is a program managed by the SC Tuition Grants Commission and provides need-based grants to qualified students at SC's Independent Colleges and Universities. Funds shown reflect the portion appropriated to the SC Tuition Grants Commission for grants. In addition to the allocations shown here under for Tuition Grants, the program also receives by statute a share of funds appropriated to the Need-based Grant program (Footnote 3).

FACILITIES

FACILITIES

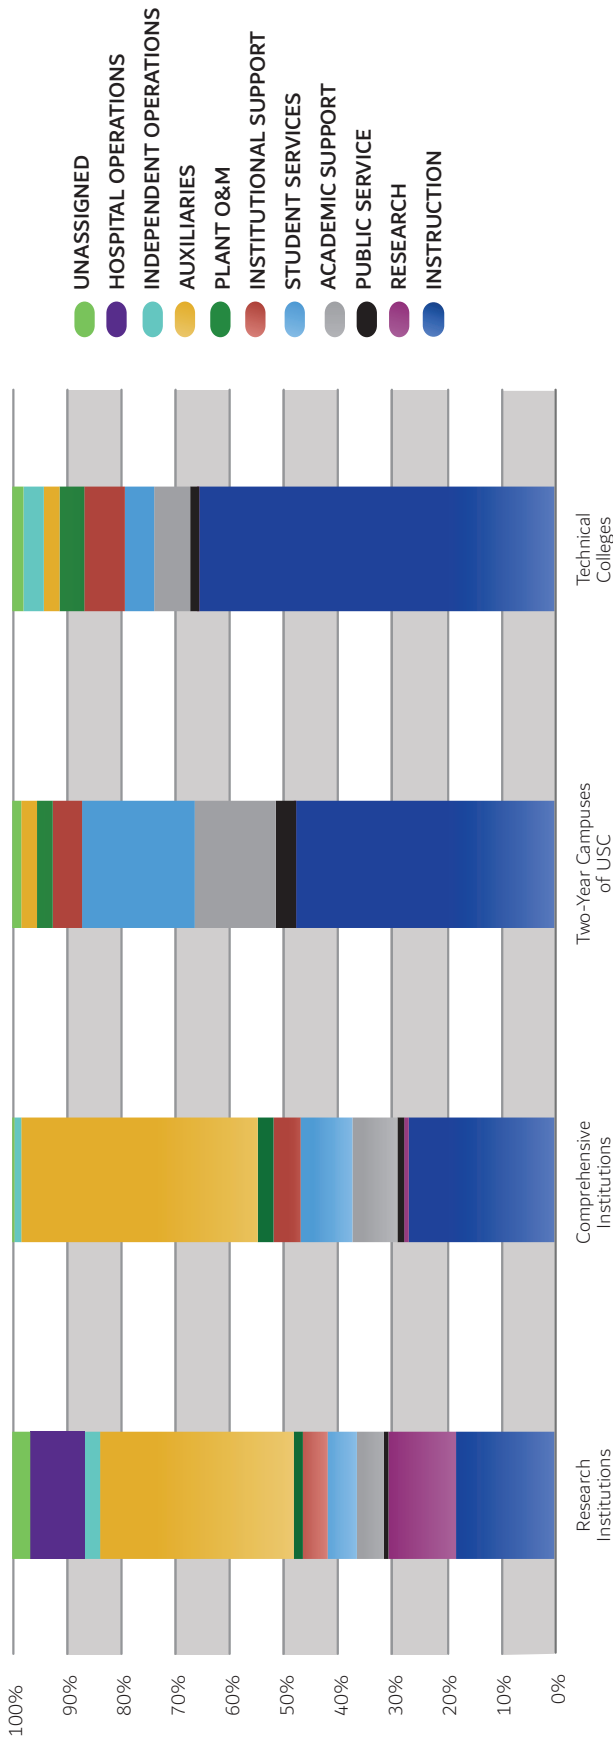

Colleges and universities conduct a wide range of activities in pursuit of their missions as institutions of higher education. The facilities in which these activities take place are a vital yet often overlooked aspect of the cost of providing postsecondary education. Institutions must have the necessary space to conduct instruction, research, student support, administration, and service activities. Likewise, facilities must be modern, adequate, and safe. Research has shown that campus facilities play an important role in the recruitment and retention of students. In addition, modern physical resources can also provide opportunities for advancement in academic programs, research, and public service.

Institutions are responsible for the effective allocation and utilization of their campus facilities. National and state standards and guidelines have been established to assist in these endeavors. The degree and manner in which each institution fulfills its functions depends in large measure on its campus master plan, strategic goals, size, and availability of resources. Outside factors also influence the ability of institutions to meet the demands of their facilities. These factors include the availability of capital funding; changes and increases in standards, codes, and approval requirements; and increasing costs of operation and maintenance.

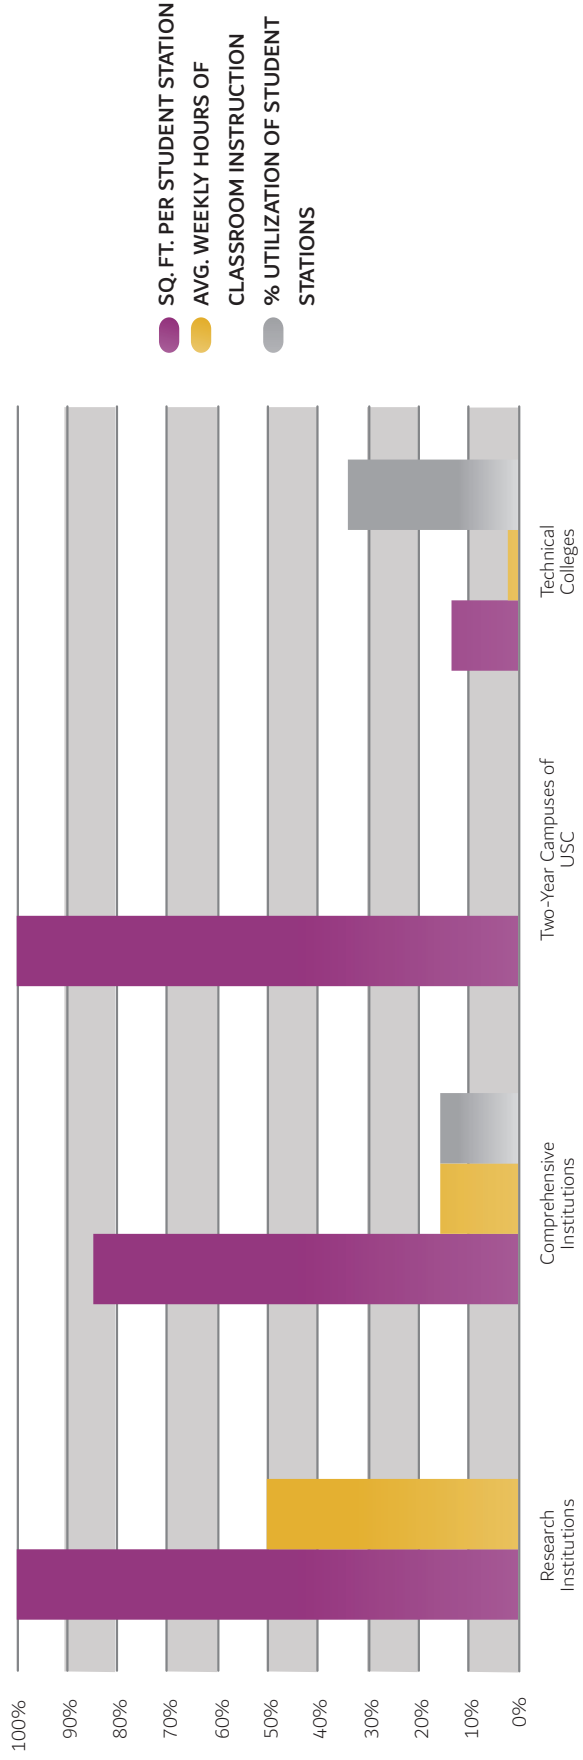

The campuses of South Carolina's institutions serve multiple purposes. One way to understand how the facilities are being used at an institution is to look at the percentage of available space primarily assigned to a given function. This gives a picture of the many different facets that make up an institution and how those functions vary from research institutions all the way to the technical colleges.

Seeing how much the designated classroom space at a campus is used can indicate how efficient a campus is in using its educational space and how many students it can accommodate with its current facilities. To measure classroom utilization, standards are set to quantify how efficiently the assigned facility space is being used. Some current South Carolina standards are as follows: the space of a classroom is considered fully utilized if the size of a student station in that classroom is 22 square feet or less, a classroom is considered in full use if it is used for instruction an average of 30 hours or more in a week, and a classroom is considered fully utilized if 60% or more of the student stations are occupied in the assigned classrooms during the instructional week.

FACULTY

FACULTY

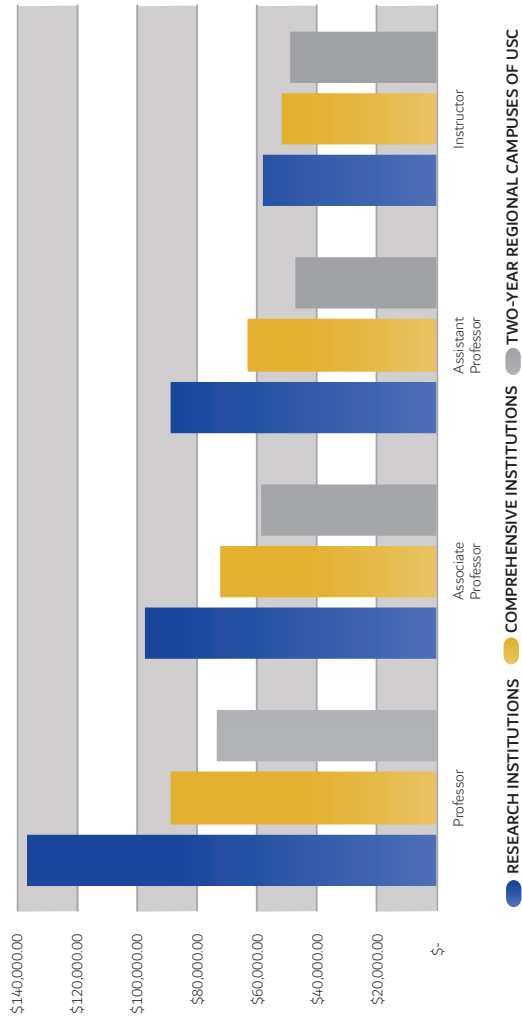

The variation in average salaries for full-time faculty at South Carolina public colleges and universities ranges from a high of \$136,381.00 for professors at research universities to a low of \$47,067.86 for assistant professors at USC's two-year regional campuses. In general, full-time ranked faculty at research institutions received the highest average salaries across every level, while full-time faculty at USC's two-year regional campuses received the lowest average salaries.

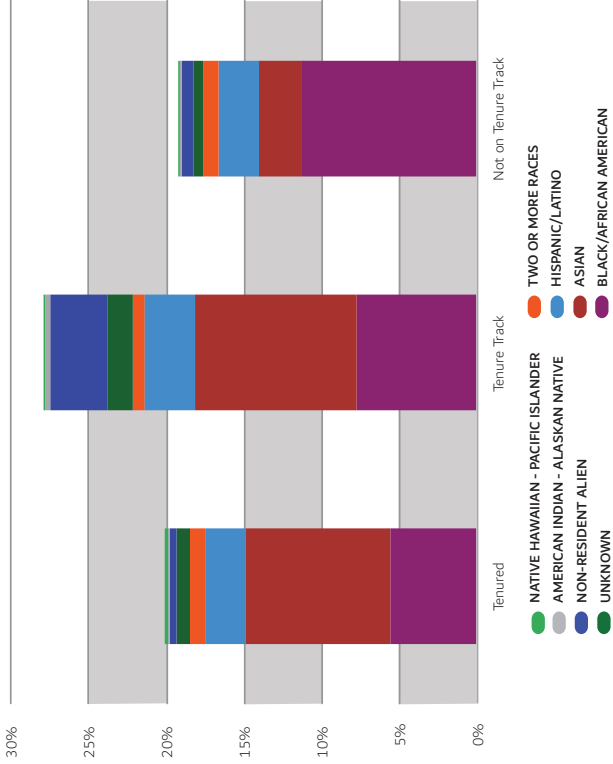

The difference between salary by rank varies based on the type of institution. The difference in average net pay between a tenure track assistant professor and tenured associate professor is the largest at USC's two-year regional campuses, while the difference in average net pay between associate professors and full professors is the largest at research institutions. However, even with the increase in salary for tenure rank faculty, the average salary for professors at comprehensive teaching institutions and USC's two-year regional campuses remains lower than the average salary for tenure track faculty at Research Institutions.

Faculty diversity within South Carolina's colleges and universities has increased over the past decade. The largest minority group of faculty remains Black/African Americans. Gains can be seen for most minority groups but are the largest for Hispanic/Latino and Asian faculty. Examining the data by teaching ranks reveals more nuanced trends. Asian American faculty hold a larger proportion of tenured and tenure track positions than Black/African American faculty, but Black/African American faculty outnumber Asian American faculty four-to-one in full-time, non-tenure track positions. These differences by faculty rank are not as large in other minority groups except for non-resident aliens, where non-resident aliens on tenure track outnumber tenured faculty from the same group by five-to-one.

Required Fees – Fixed sum charged to students for items not covered by tuition and required of such a large proportion of all students that the student who does NOT pay is an exception.

Room Charges – The charges for an academic year for rooming accommodations for a typical student sharing a room with one other student.

Room Hours of Instruction – The number of hours each week that a classroom is used for regularly scheduled classes.

Space Factor Calculation – A very useful calculation for facilities planners, in that it combines into a single factor the concepts of weekly room hours, percent student station utilization, and assignable square feet per student station. The calculation is: average student station size (SF per student station) divided by average week room hours of instruction multiplied by station utilization percentage.

Success Rate – The Graduation Rate Survey (GRS) defines the cohort of students to be included each year as the first-time, full-time, degree-seeking students entering an institution each fall. The GRS rate is calculated on the percentage of a cohort graduating within 150% of normal program time. The Success Rate, in addition to the graduates, includes those students who as of 150% of program time have transferred to another institution or those students who have continued to be enrolled the term following 150% of program time. This is often referred to as the "GRS Rate Plus."

Transfer Student – A student entering the reporting institution for the first time but known to have previously attended a postsecondary institution at the same level (e.g., undergraduate, graduate). The student may transfer with or without credit.

APPENDIX 5 – GLOSSARY (continued)

Tuition – The amount of money charged to students for instructional services. Tuition may be charged per term, per course, or per credit.

White – A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

APPENDIX 6 – EXPLANATIONS & CHANGES IN CATEGORIES FOR RACE/ETHNICITY REPORTING

Note: New Definitions and reporting requirements to the federal government for race and ethnicity have been adopted in accordance with the final guidance issued by the U.S. Department of Education on October 19, 2007. These changes are necessary to implement the US Office of Management and Budget's (OMB) 1997 Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity. For more details on the changes, please see the following web site: <http://nces.ed.gov/ipeds/reic/resource.asp>. Under the new guidelines, individuals may select an ethnicity and one or more races. The ethnicity choice is between Hispanic and not Hispanic. Hispanic is defined as a person of Cuban, Mexican, Puerto Rican, South or Central American, or Spanish culture or origin, regardless of race. To match Federal reporting guidelines, all who select Hispanic will be reported under this category and non-Hispanic individuals who select more than one race will be reported in the category titled Two or More Races. Those individuals who select non-Hispanic and a single race will be reported under the single race.

- ▶ Under the new guidelines, all individuals who select Hispanic as their ethnicity will be reported here regardless of the race or races selected.
- ▶ The new definition separates Asian, Native Hawaiian, and Other Pacific Islander. During the next few years as we transition between the old and new definitions, the data reported under the old definition of Asian or Pacific Islander will be included under Asian so that a mapping of the data from old definitions to new definitions can occur.
- ▶ Non-Hispanics who select more than one race will be reported under the label Two or More Races.

In 2009-10, reporting of data to the Commission on Higher Education using the new guidelines was optional. In 2010-11, all data was reported using the new definitions.
